What is the most significant barrier that exists between AI and educators at your institution?

What is the most significant barrier that exists between AI and educators at your institution?

 Share

Open text poll 31 responses 29 participants

Anonymous

People using Ai writing articles, meaning that breaching the rule of ethics and no care for the coherent utilization of AI tools while writing papers. Did not check the data and sources from the links whether are relevant or not.

Anonymous

Regulation problem and cheating academic ethics

Anonymous

AI and teacher competences... this is the question

Anonymous

There is no training nor instructions nor guide for teachers. Training on use and ethics for students. Institutional policies are not clear.

What is the most significant barrier that exists between AI and educators at your institution?

Anonymous

A lack of consciousness of the implications of the use of AI and a lack of discussion apart from the hype of the "new gadget"

Anonymous

Lack of funding for paid reliable AI tools

Anonymous

Lack of instructions and teachers training

Anonymous

Lacking good practices for meaningful integration of AI into courses

Anonymous

institutionally licenced top-tier AI tools

Anonymous

positive and functional use of AI

Anonymous

the lack of AI literacy

What is the most significant barrier that exists between AI and educators at your institution?

Anonymous

no systematical education about it

Anonymous

lack of enough knowledge

Anonymous

No regulations

Anonymous

there are no regulations at all at my institution. We as teachers are unsupported and abandoned, left to our own devices

Anonymous

using it superficially

Anonymous

copyright

Anonymous

No policies

- Anonymous
Lack of institutional guidance
- Anonymous
prejudice against technology
